(ORLANDO, Fla.) June 25, 2014 — CNL Financial Group's Head of Regulatory Affairs Kirk Montgomery will speak at the 11<sup>th</sup> annual IMN Non-Traded REIT Industry Symposium Conference, being held June 26 in New York City.

The Information Managing Network's (IMN) yearly Non-Traded REIT Symposium will explore the many regulatory and legal issues facing the non-traded REIT industry. This year's conference is also being expanded to discuss non-traded business development companies (BDCs), which face many of the same regulatory issues.

Montgomery's panel will discuss the practical implementation of recent changes to FINRA RN 14-06 and how those changes will impact various aspects of non-traded REIT and BDC management and sales. Montgomery and executives from other sponsor organizations will address the impact the changes will have on various aspects of their business including product structure and design, distribution strategies, compliance requirements, and compensation agreements.

FINRA RN 14-06 made several updates to the Interpretation of Financial and Operational Rules that govern the securities industry. These changes are expected to significantly alter the regulatory and business environment for non-traded REITs and BDCs.
